

Don't let the boxy look fool you, this Yeti is roomy, economical and ideal for the family but the turbocharged engine can still satisfy the occasional rush of blood.

Smooth and nimble to drive and still in warranty with six months rego!

With the Skoda / VW patented "spongy braking system" (recently fitted) and a new 7speed DSG automatic transmission that randomly loses drive at low speed; every drive will have your pulse racing.

Add in variable delayed throttle response and shuddering in first gear and you have a once in a lifetime opportunity to experience a seemingly eternal "white knuckle" ride.

Wippells Auto's Toowoomba, Skoda & VW, now that's a total lack of motoring confidence.
